Any comments or suggestions for improvement should be addressed to the TÜV-Verband. In the event of any doubt or dispute, the German text shall prevail.

**Preamble**

The list comprises all flange manufacturers which have been inspected, before the date of issue, by an expert of a Technical Supervisory Organisation (TÜO)<sup>\*)</sup> and meet the requirements stipulated by AD 2000-Merkblatt W 9 or by TRD 107 regarding the renunciation of an inspection certificate.

It is re-published biannually.

The manufacturers listed in this TÜV-Verband Technical Leaflet meet the requirements stipulated by AD 2000-Merkblatt W 9 as well as by TRD 107 and may renunciate the issuing of inspection certificates, provided their products are appropriately marked in accordance with the before-mentioned Technical Rules.

The relevant acceptance tests in accordance with AD 2000-Merkblatt W 9 or TRD 107, respectively, shall be performed in any case and be documented internally by the manufacturer, even if the manufacturer is permitted to renunciate the issuing of an inspection certificate.

---

<sup>\*)</sup> Technical Supervisory Organisation, which is a member of the TÜV-Verband.
