Preamble

The list in this Technical Leaflet comprises all screws and nuts manufacturers (machining operators) which have been inspected, before the date of issue, by an expert of a Technical Supervisory Organisation (TÜO)*) and meet the requirements for the respective scope stipulated by AD 2000-Merkblätter W 7/1 and W 7/2 regarding the replacement of an inspection certificate DIN EN 10204 – 3.1 by the marking.

It is re-published biannually.

The relevant acceptance tests in accordance with AD 2000-Merkblatt W 7/1 or AD 2000-Merkblatt W 7/2 shall be performed in any case and be documented internally by the manufacturer, even if the manufacturer is permitted to renunciate the issuing of an inspection certificate 3.1 in accordance with DIN EN 10204.
